# Investment objective and strategy

The Sygnia Life Income Maximiser is designed for living annuity clients seeking maximum yield while avoiding the use of capital to fund drawdowns. The fund dynamically switches between SA Enhanced Income and SA Bonds, depending on the shape of the yield curve: when the yield curve is flat, the fund invests in SA Income, and when the yield curve is steep, the fund switches into SA Bonds. Thus, the fund maximises yield and minimises risk dependent on the economic environment. A small allocation to property diversifies the overall fund.

## Risk profile

The Sygnia Life Income Maximiser is a low- to medium-risk investment. The fund targets high income to fund living annuity drawdowns and is designed for investors seeking high yield who can tolerate moderate capital fluctuations.
